

Lizzie's Zoo Adventures

By: Lydia Lukidis

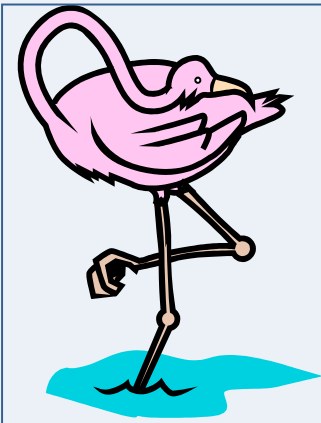

One day, out of the blue,
Lizzy's parents took her to the zoo!
She was super excited and very happy
Because there were so many animals to see.

First, Lizzy could not believe her eyes,
The animal she saw was really full-size.
It was a gigantic elephant with a big gray trunk,
He was singing a song that sounded like funk.

Then she saw a peculiar little monkey,
He was as funny as can be.
He swung around with glee
For everyone to see.

Lizzy also saw a most bizarre looking bird,
It had the strangest name you ever heard.
It was called a "flamingo" and had a really long beak,
When it tried to talk, it sounded like a squeak.

Across from the bird, you couldn't help but stare
At the really big furry grizzly bear.
But he didn't look scary at all,
He was playing with a butterfly and having a ball!

All of a sudden, Lizzy heard a "roar!"
It was so loud, it almost shook the floor.
It was large male lion who was walking about,
He was the king of the zoo, there was no doubt.

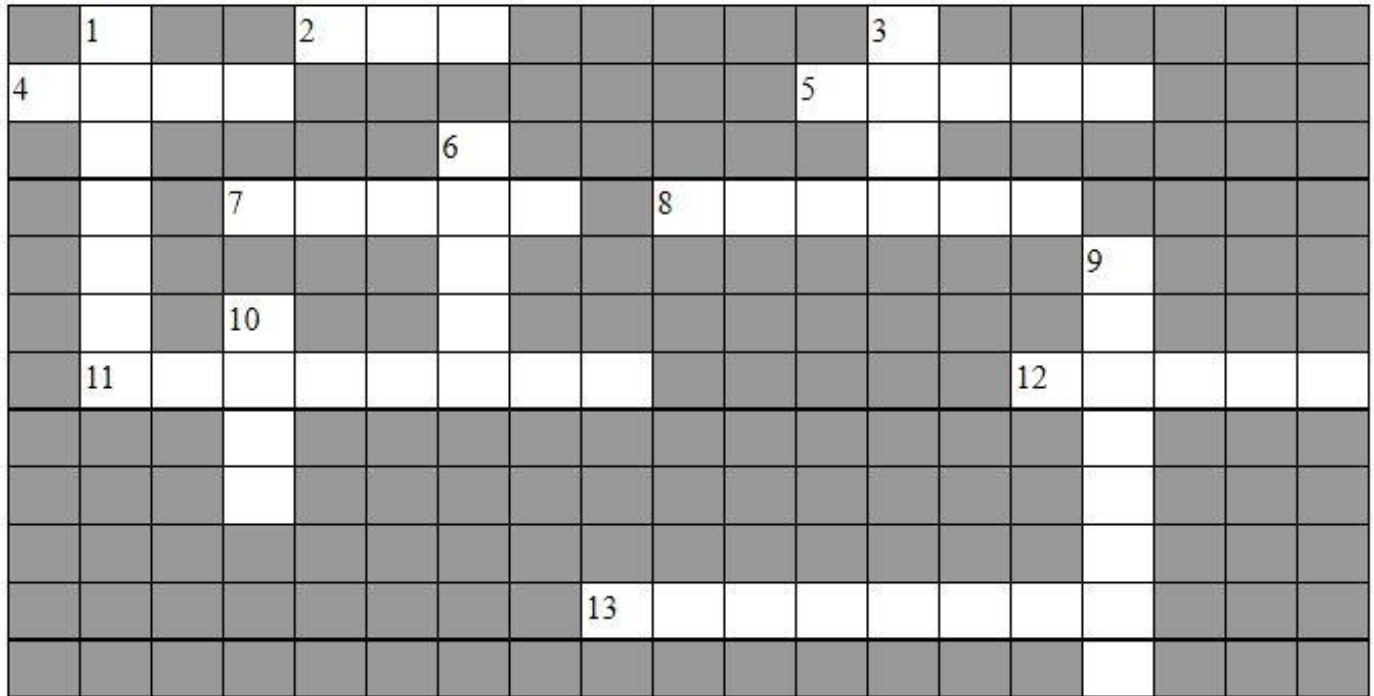

There was also a hopping kangaroo
And a big beautiful caribou
Along with a funny looking baboon
Who was feeding candy to a raccoon.

Lizzy so saw many different animals that day,
Which one she loved most, it was hard to say.
They were all special in their unique way,
She wished they would all come out and play!
